w/ Follow-ups for the National Candidates

(Reprinted from www.x-ppac.org)

[Primary question for every candidate] As President of the United States will you release to the American people all government documents relating to alleged extraterrestrial phenomena and will you demand a full briefing from the military services and intelligence agencies regarding these phenomena?

[For Bill Richardson] Governor, in your foreword to the 2006 book, The Roswell Dig Diaries, you wrote: "the mystery surrounding this crash (at Roswell) has never been adequately explained - not by independent investigators, and not by the U.S. government." As President of the United States will you release to the American people all government documents relating to alleged extraterrestrial phenomena and will you demand a full briefing from the military services and intelligence agencies regarding these phenomena?

- [Follow-up] Governor, in 2002 and 2003 former Clinton top advisor and chief of staff, John Podesta, also publicly called for declassifying these documents, yet the political press made no effort to follow up with either him or you and Democratic Party adversaries made no challenge or attempt at ridiculing either of you. Do you not find that inexplicable?

[For Hillary Clinton] Senator, from 1993 through 1995 Laurance Rockefeller approached the Office of Science and Technology Policy under Dr. John Gibbons in the Executive Branch, and made a concerted effort to convince your husband to release all government documents pertaining to extraterrestrial related phenomena. As President of the United States will you release to the American people all government documents relating to alleged extraterrestrial phenomena and will you demand a full briefing from the military services and intelligence agencies regarding these phenomena?

- [Follow-up] Senator, in 1994 and 1995 you and President Clinton visited Laurance Rockefeller at his JY Ranch near Jackson Hole, WY and met with him privately. Did you discuss with Mr. Rockefeller his disclosure initiative directed at your husband's administration and are you aware that 50% of the American poll they believe UFOs are extraterrestrial in nature?
