Another story is out about Eisenhower meeting with aliens. That how makes four rumored encounters. This encounter is made in a claim by Mr Gordon Duff, Senior Editor of [Veterans Today](#), who claims to have read a 'Majestic Twelve' documents in 1981 or 1982. The document he claimed to have read was dated August 1977 shortly after President Jimmy Carter took office.

A few weeks back Duff also made claims about a joint US/Chinese effort to combat UFOs. The story according to Duff was provided by South Korean intelligence.

During an interview with George Noory on Oct 16th he makes the following fascinating statements:

"In 1982 I was put on the readers group for Majestic Twelve... ahh, I received an original copy, slightly redacted.. done off a typewriter.. dated August 23rd 1977 from the Office of Naval Intelligence. That... ummm... about 12 pages long... I had copy number 5. Done on just plain flimsy, from the... you know that manual remington typewriter years? ... Well, I read it once... and I was working for a Government agency at the time and had a very high security clearance. It took me 18 months to be cleared for the reading group. I read the documents once and... ahhh... put them back in the envelope... twisted the string around.. (laughs) Returned to sender. Sent them back and found that I could never live knowing what was on those. And then... Years later, lo and behold, almost everything that was in those documents... was later on the plot of the television show X-Files. ... I have been told that Chris Carter was put on the reading group of Majestic Twelve. "

Part of this MJ-12 document involved information stating that in 1953 President Eisenhower had made a deal with hostile group of aliens. (MJ-12 is the rumored group in control of the UFO situation.)

"The document covered the period from 1947 to 1977 when they were produced. They indicated that over this period we had two distinct treaties. There have been more since, I have been told. One [treaty] in 1947, initially with President Truman. One in 1953, with President Eisenhower... The 1953 treaty with President Eisenhower was an agreement, a coercive agreement against the USA on behalf of a hostile alien power that wished to be able to kidnap a number of citizens from the United States, which means of course that they had agreements with other nations as well."

"The numbers were unusually high. (the number mentioned later is 230,000) These were not people that were going to be detained, and probed, and returned. These were people that were going to be detained and butchered. They were very clear about that!"

So that now makes the fourth story about Eisenhower meeting with alien

- 1953 - The new Duff MJ-12 claim.
- 1954- The story of Eisenhower meeting with aliens in 1954 at Edwards AFB while on holiday in Palm Springs. (There are two versions one with good aliens and one with bad alien wanting to make a deal for abductions.
- 1955 - The story of Eisenhower at Holloman AFB.
- 1957 - Variet Thor meets with Eisenhower and Nixon in the White House in 1957.

Many of these stories have either poor evidence to back them up or a total lack of common sense. An example of the lack of common sense is - why would evil aliens negotiate to abduct or kill humans. Who is going to stop them if they don't "sign a treaty." More problematic is why would the aliens provide technology for the humans they are abducting or killing. Would that just not arm the people who will one day use these weapons against you.

There are seven rumored stories of presidents meeting with alien - 1 Truman, 1 Kennedy, 1 Reagan, and 4 Eisenhower. For whatever reason President Eisenhower is winning hands down.
