President Roosevelt writes Secretary of War Harry Stimson concerning the air raid over Los Angeles on February 25th. The letter seems to indicate the event was not seen as a UFO event.

The Battle of Los Angeles - FDR to Stimson

25

February 26, 1942

Dear Harry:

Who is responsible for the air alarm system in the United States? Can anyone other than an authorized official of the United States Army order an air alarm?

It seems to me that all comment in reference to air alarms should be made exclusively by the appropriate officials of the Department responsible.

I am writing this note in the light of the two alarms last night.

Very sincerely yours,

FRANKLIN D. ROOSEVELT

The Honorable
The Secretary of War. *x25*
