Now that Dick Cheney has a new heart and a new lease on life, it might be important to look back on his UFO history. Cheney was a powerful man in government, serving as a member of the U.S. House of Representatives, Minority House Whip, Chief of Staff to President Ford, Secretary of Defense for Bush Sr, and then Vice-President under George Bush.

Here is the actual audio of Cheney, just after he became VP speaking from the White House as I asked him the important briefing question - that is the question as to whether or not someone walked into his office at some point and told him the truth about UFOs - in other words given an official briefing on the subject.
