

Beatles, Nobel Prizes, and Consciousness

Written by Grant Cameron

Sunday, 22 June 2014 16:28 - Last Updated Sunday, 22 June 2014 16:34

In this fascinating interview with [Linda Irwin of Unseen World](#) , Grant Cameron shares details of his latest research into the consciousness connection between matter existing in all dimensional realities.

Awarded the International Researcher of the Year at the 2012 Leeds UFO conference, and the Researcher of the Year at the 2013 International UFO Congress in Phoenix Arizona, until recently Grant's work had focused on the investigation of 'nuts and bolts' issues regarding all things ET and UFO.

In this conversation, discover how his work is now focused on the source of intelligence we contact and access through what we know as inspiration, telepathy and consciousness here on Earth and when in communication with our Star Visitors.
