In a post-interview segment of year end interview with the five major TV networks in Russia Prime Minister Dmitry Medvedev was asked by a reporter from REN-TV “the president is handed secret files on aliens when he receives the briefcase needed to activate Russia's nuclear arsenal,” [Medvedev responded](#) :

Along with the briefcase with nuclear codes, the president of the country is given a special 'top secret' folder. This folder in its entirety contains information about aliens who visited our planet... Along with this, you are given a report of the absolutely secret special service that exercises control over aliens on the territory of our country... More detailed information on this topic you can get from a well-known movie called Men In Black... I will not tell you how many of them are among us because it may cause panic.
